ENTRANCE

IT ALL FEELS RIGHT

Leaving heading eastbound
Weekends almost here now
It's getting warmer outside
It all feels right

Call your friends, I'll call mine
We'll head out for a long ride
Sun is coming out now
It all feels right

Close my eyes
Think about the old times
What's it all about?
The feeling when it all works out

We'll be gone for a few nights
Meet up with the old crowd
Music's playing so loud
It all feels right

Close my eyes
Think about the old times
What's it all about?
The feeling when it all works out

DON'T GIVE UP

It's been so long
Since we said goodbye
Too much that went wrong
Has led us far apart

I was still surprised
When I caught your eye
After all this time

And it took me back
To the times we had
We had

Even though that we're far apart
We've come so close
and it feels so right
Don't give up

Even though that we're far apart
We've come so close
and it feels so right
Don't give up

Our life is over
It's all been left behind
So many choices
Separate us now

I was still surprised
When we met that night
After all this time

And it took me back
To the times we had
We had

Even though that we're far apart
We've come so close
and it feels so right
Don't give up

WEIGHTLESS

Close your eyes
You're weightless now
Floating safely off the ground
Far above
Keep rising up
You're racing towards the stars

You've waited all your life
To leave it all behind

Rise up
Forget about your suffering
Float up
Forget about the pain
Leave it all and start again

Don't you cry
You've made it out
You're safe from all alarm
And all the traps
That held you back
Are far below you now

You've waited all your life
To leave it all behind

Rise up
Forget about your suffering
Float up
Forget about the pain
Leave it all and start again

ALL I KNOW

I can see your face on the wall
I hear you're voice and I call
I feel the weight of it all
Can't brace myself for the fall

In the silence I hear your fading call
In your eyes I see and feel it all
In my mind I try to let go
It's so hard cause your all I know

You act like there's nothing wrong
You laugh when I call on the phone
Say it's time that I try to move on
That the life that we had is now gone

In the silence I hear your fading call
In your eyes I see and feel it all
In my mind I try to let go
It's so hard cause your all I know

GREAT ESCAPE

All I want is someone I can lean on
All I need is the simple life
Make believe the world has
vanished around us
We could sneak away and not
come back

We'll run far away
And make a great escape

We can hide out
Won't look back
Slow it down for a while
We'll be alright
You and I
Far away from it all

All I want is a place I can belong
All I need is some peace of mind
We could sneak away and start
all over
We could leave today and not
come back

We'll run far away
And make a great escape

PARACOSM

You're safe
It's over now
And we're all alone
Inside
Our sanctuary
Where we can get away
A place to run and hide

You're safe
The curtain's drawn
And we're all alone
Inside
In our special place
Where we can get away
Escape it all tonight

Inside
We're all alone tonight
You and I
We're far away from it all
Inside
We're all alone tonight
You and I
Tonight

FALLING BACK

You call my name out
At the darkest hour
You try to deny it
To forget why

You know inside it's right

You're falling back
You're falling back
Falling back
You're falling back

You can't fight it
You don't know why
You run in circles
From what's inside
It's all you've got

You're falling back
You're falling back
Falling back
You're falling back

ALL OVER NOW

You fade into a dream
You're freer than you've ever been
You float just like the wind
Explore a life you never lived
from deep within

Though you fight it off
you know that there's a moment
when you have to give it up

It's all over now
